

Fishing Equipment

Coverage that pays for loss or damage to fishing equipment while on board, or while being carried on or off, an insured boat. You must pay a \$100 deductible for each loss and up to \$10,000 of coverage for all damaged equipment, or \$1,000 for damage or loss to any one item, is provided.

Fishing Equipment coverage is primary, which means you don't have to submit a homeowners claim for damage to your fishing equipment.

If fishing equipment is stolen, the theft must be supported by visible evidence of forcible entry.

A tackle box is considered one item regardless of the number of lures, hooks, baits and other items stored in the container.

Fishing Equipment coverage is not available for personal watercraft.
