

Water Sports

Water Sports coverage is automatically included with Bodily Injury and Property Damage Liability (BI/PD), at no extra cost to you, for bodily injury or property damage caused by someone towed by the insured watercraft for activities such as waterskiing, knee boarding, wake boarding or tubing. The limits of coverage are the same as your BI/PD limits.

Water Sports coverage is also included with Medical Payments coverage, at no extra cost to you, for bodily injury incurred by you and your relatives while in the insured watercraft or while being towed by an insured watercraft being used for waterskiing, knee boarding, wake boarding or tubing.

Activities not included in Water Sports coverage include parasailing, hang gliding, kite skiing or any other activity involving a device designed for flight.
